United States Department of Education
OFFICE OF ELEMENTARY AND SECONDARY EDUCATION
ACADEMIC IMPROVEMENT AND TEACHER QUALITY PROGRAMS

February 2006

Dear Colleague:

Thank you for your interest in the Alaska Native Education Program, administered by the Office of Elementary and Secondary Education of the U.S. Department of Education. This document includes information for applicants seeking funding for new grant projects with Fiscal Year (FY) 2006 under the Alaska Native Education Program (ANE), authorized under Title VII, Part C of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the No Child Left Behind Act of 2001.

The purpose of the Alaska Native Education Program is to support innovative projects that meet the unique needs of and improve the educational services provided to Alaska Natives. Please take the time to review the applicable priorities, selection criteria, and all of the application instructions thoroughly.

For this competition, it is mandatory for applicants to use the new government-wide website, Grants.gov (<http://www.grants.gov>), to apply. This changes last year's requirement that applicants use the U.S. Department of Education's e-Grants system. Please note that the Grants.gov site works differently and takes a longer time to process applications than the U.S. Department of Education's e-Application System. We encourage you to familiarize yourself with Grants.gov and strongly recommend that you register early and submit early.

Also for this competition, the Secretary has established a competitive preference priority and an invitational priority. Specific information can be found within the application package. We will award discretionary grants on a competitive basis for a project period of up to 3 years. We expect to award grants in August.

Please visit our program website at <http://www.ed.gov/programs/alaskanative> for further information. If you have any questions about the program after reviewing the application package, please contact me, Alexis Fisher, at (202) 401-0281 or alexis.fisher@ed.gov for assistance. Again, thank you for your interest. We look forward to receiving your application and appreciate your efforts to meet the educational needs of Alaska Native children and adults through this program.

Alexis Fisher
Program Officer
Alaska Native Education Program

INTRODUCTION

This is the complete application package for applicants seeking Fiscal Year (FY) 2006 funding under the Alaska Native Education program (CFDA Number 84.356A), authorized under Title VII, Part C of the No Child Left Behind Act of 2001. Included in this application package are the instructions and forms needed to submit an application to the U.S. Department of Education (ED). Please take the time to review the authorizing statute, the applicable priorities, and all of the application instructions thoroughly.

PROGRAM CONTACT

After reviewing the application package if you have any questions about the program, please contact Alexis Fisher at alexis.fisher@ed.gov or (202) 401-0281. Information is also available at <http://www.ed.gov/programs/alaskanative/index.html> through the Alaska Native's website.

PROGRAM INFORMATION

The purpose of this program is to recognize, cultivate and support efforts to help meet the unique educational needs of Alaska Natives and to support the development of supplemental educational programs to benefit Alaska Natives. To this end, ED awards competitive grants for a period of up to 3-year to support innovative projects address the distinct educational needs of Alaska Natives. The Alaska Native Education program supports the following activities that should be based on scientifically based research as defined in section 7304 of the No Child Left Behind Act:

- The development and implementation of plans, methods, and strategies to improve the education of Alaska Natives;
- The development of curricula and educational programs that address the educational needs of Alaska Native students;
- Professional development activities for educators;
- The development and operation of home instruction programs for Alaska Native preschool children, to ensure the active involvement of parents in their children's education from the earliest ages;
- Family literacy services;
- The development and operation of student enrichment programs in science and mathematics;
- Research and data collection activities to determine the educational status and needs of Alaska Native children and adults;
- Other research and evaluation activities related to programs carried out under this part;
- Remedial and enrichment programs to assist Alaska Native students in performing at a high level on standardized tests;
- Education and training of Alaska Native students enrolled in a degree program that will lead to certification or licensing as teachers;

- Activities carried out through Even Start programs and Head Start programs Act, including the training of teachers;
- Other early learning and preschool programs;
- Dropout prevention programs;
- Career preparation activities to enable Alaska Native children and adults to prepare for meaningful employment, including programs providing tech-prep, mentoring, training, and apprenticeship activities;
- Provision of operational support and purchasing of equipment, to develop regional vocational schools in rural areas of Alaska, including boarding schools, for Alaska Native students in grades 9 through 12, or at higher levels of education, to provide the students with necessary resources to prepare for skilled employment opportunities;
- Construction; and
- Other activities, consistent with the purpose of this program, to meet the educational needs of Alaska Native children and adults.

ELIGIBLE APPLICANTS

Alaska Native organizations, educational entities with experience in developing or operating Alaska Native programs or programs of instruction conducted in Alaska Native languages, cultural and community-based organizations with experience in developing or operating programs to benefit Alaska Natives, and consortia of organizations and entities described in this paragraph to carry out programs that meet the purposes of the program. A State educational agency or local educational agency may apply for an award only as part of a consortium involving an Alaska Native organization. The consortium may include other eligible applicants.

ESTIMATED FUNDS & AWARDS

The U.S. Department of Education is estimating that \$16,300,000 will be available for new awards during this competition. From this amount, we expect to award 20 – 40 new grants. Contingent upon the availability of funds and quality of applications, additional awards in FY 2007 may be granted from the list of unfunded applicants from this competition.

COMPETITIVE PREFERENCE PRIORITY

For FY 2006 there is a competitive preference priority. An additional 5-points will be awarded to applications that are submitted from an Alaska Native regional nonprofit organization or from a consortium that includes at least one Alaska Native regional nonprofit organization. In order to receive a competitive preference under this priority, an application must provide documentation supporting its claim that it meets this priority.

INVITATIONAL PRIORITY

For FY 2006 there is a competitive preference priority. The Department strongly encourages applications for projects that address the construction needs of rural schools serving Alaska Native students. However, an application that meets this invitational priority does not receive competitive or absolute preference over other applications.

APPLICATION DEADLINE

The deadline for submitting an application is April 27, 2006. Please note that the electronic submission of your grant application must be **completed** by 4:30 p.m. Washington, D.C. time on the application deadline date. The U.S. Department of Education will not accept an application for this competition after 4:30 p.m. Washington, D.C. time. Therefore, we strongly encourage that you do not wait until the application deadline date to begin the application process. You may not e-mail an electronic copy of your application to us.

APPLICATION PROCESS

Applications for grants under the Alaska Native Education Program must be submitted electronically using the Federal Government's Grants.gov system. This system is accessible via the Internet at <http://grants.gov/>.

Important Information Regarding Grants.gov

Education Submission Procedures and Tips for Applicants

Please note that the Grants.gov site works differently than the U.S. Department of Education's (Department) e-Application system. To facilitate your use of Grants.gov, this document includes important submission procedures you need to be aware of to ensure your application is received in a timely manner and accepted by the Department of Education.

Submittal Steps

1. **REGISTER EARLY** – Grants.gov registration is a one-time process that may take five or more days to complete. You may begin working on your application while completing the registration process, but you cannot submit an application until all of the Get Started steps are complete. For detailed information on the Get Started Steps, please go to: <http://www.grants.gov/GetStarted>.
2. **SUBMIT EARLY** – **We strongly recommend that you do not wait until the last day to submit your application. Grants.gov will put a date/time stamp on your application and then process it after it is fully uploaded.** The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection, and the time it takes Grants.gov to process the application will vary as well. We agree with other ED programs that you may want to submit your application 3 days prior to the deadline to insure complete and accurate uploading of your application. The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection, and the time it takes Grants.gov to process the application will vary as well. If Grants.gov rejects your application (see step three below), you will need to resubmit successfully before 4:30 pm on the deadline date.

Note: To submit successfully, you must provide the DUNS number on your application that was used when your organization registered with the CCR (Central Contractor Registry).

3. **VERIFY SUBMISSION IS OK** – You will want to verify that Grants.gov and the Department receive your Grants.gov submission timely and that it was validated successfully. To see the date/time your application was received, login to Grants.gov and click on the Check Application Status link. For a successful submission, the date/time received should be earlier than 4:30 p.m. on the deadline date, AND the application status should be: Validated, Received by Agency, or Agency Tracking Number Assigned.

If the date/time received is later than 4:30 p.m. Washington, D.C. time, on the closing date, your application is late. If your application has a status of “Received” it is still awaiting validation by Grants.gov. Once validation is complete, the status will either change to “Validated” or “Rejected with Errors.” If the status is “Rejected with Errors,” your application has not been received successfully. Some of the reasons Grants.gov may reject an application can be found on the Grants.gov site: <http://www.grants.gov/assets/ApplicationErrorTips.doc>. If you discover your application is late or has been rejected, please see the instructions below. Note: You will receive a series of confirmations both online and via e-mail about the status of your application. Please do not rely solely on e-mail to confirm whether your application has been received timely and validated successfully.

Submission Problems – What should you do?

You **must completely submit** an electronic application before 4:30 p.m., unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. (See the Federal Register notice for detailed instructions.)

If you have problems submitting to Grants.gov before the closing date, please contact Grants.gov Customer Support at 1-800-518-4726 or use the customer support available on the Web site: <http://www.grants.gov/CustomerSupport>. The program office does not directly work within the Grants.gov system and will not be able to assist you with technical problems.

Helpful Hints When Working with Grants.gov

Please note, once you download an application from Grants.gov, you will be working offline and saving data on your computer. Please be sure to note where you are saving the Grants.gov file on your computer. You will need to logon to Grants.gov to upload and submit the application using the Windows-based the Pure Edge software. (This is different from e-Application, where you are working online and saving data to the Department’s database.) **You must provide on your application the DUNS number that was used when your organization registered with the CCR.**

Please go to <http://www.grants.gov/ForApplicants> for help with Grants.gov and click on the links in the lower right corner of the screen under Applicant Tips and Tools. For additional tips related to submitting grant applications, please refer to the *Grants.gov Submit Application Tips* found on the Grants.gov homepage <http://www.grants.gov>.

Dial-Up Internet Connections

When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. **If you do not have access to a high-speed connection and since electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date.** (See the Federal Register notice for detailed instructions.)

MAC Users

If you do not have a Windows operating System, you will need to use a Windows Emulation program to submit an application using Grants.gov. For additional information, review the [PureEdge Support for Macintosh](http://www.grants.gov/GrantsGov_UST_Grantee/!SSL!/WebHelp/MacSupportforPureEdge.pdf) white paper published by Pure Edge: http://www.grants.gov/GrantsGov_UST_Grantee/!SSL!/WebHelp/MacSupportforPureEdge.pdf, and/or contact Grants.gov Customer Support (<http://www.grants.gov/CustomerSupport>) for more information. **If you do not have a Windows emulation program and electronic submission is required, please follow instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date.** (See the Federal Register notice for detailed instructions.)

Exceptions to electronic requirement are available. To receive an exception, the applicant must notify the Department of Education in writing by midnight two weeks prior to the closing of this notice (April 13, 2006). To meet the requirements to receive an exception, the applicant must attest that it does not have access to the Internet or that it cannot upload large documents into the Grants.gov system. Complete instructions on how to obtain an exception are located on page 12 of this application package.

SELECTION CRITERIA

The program narrative should follow the order of the selection criteria listed below. Describe in detail activities planned for each funding period. Applicants are strongly encouraged to limit the narrative to 25 pages.

Three peer reviewers will evaluate each proposal. Reviewers will be asked to address each of the criterion identified below and to make an overall recommendation regarding each proposal. The points for the selection criterion add up to a score of 100. Five (5) competitive preference points may also be added to the score. The maximum score for all criteria and priority points is 105 points. The maximum score for each criterion is indicated in parentheses.

Reviewers will evaluate applications solely on the basis of the five (5) selection criterion identified below. The intent of this section is to identify the selection criteria and help applicants understand how they will be applied during the review process. Each selection criterion is presented in bold type below and followed by suggestions regarding how the criterion applies to this competition. The reviewers of your application will use these criteria to guide their reviews, so it is in your interest to become familiar with them.

The selection criteria for this competition are as follows:

(a) Need for Project (20 points)

In determining the need for the proposed project, the Secretary considers the magnitude of the need for the services to be provided or the activities to be carried out by the proposed project.

Suggestions for applicants: We suggest that your application include a description of your community or target group and the extent to which the proposed project is appropriate to, and will successfully address, the needs of the target population. You may want to consider: 1) timely, specific and relevant data and citing the factors that place Alaska Natives at risk of educational failure, such as poverty rates and education levels in the communities to be served; dropout and/or literacy rates; the percentage of limited English proficient students and adults and/or Title I students; and existing early childhood programs or interventions; and 2) describing how the proposed project will remedy the risk factors for each target population. Applicants are advised that a needs inventory may be helpful in determining the needs of the community and the gaps in the services that are available. The services to be provided should be closely tied to the identified needs.

(b) Quality of Project Design (30 Points)

In determining the quality of the design of the proposed project, the Secretary considers the extent to which the design of the proposed project is appropriate to and will successfully address the needs of the target population or other identified needs.

Suggestions for applicants: We suggest that you clearly describe the activities to be

provided by the project and elaborate on how these goals and objectives are linked to the identified needs. The roles to be played by any partnering organizations should be outlined, describing who will do what, when, and where, to what ends, and with what anticipated results. It is also suggested that you carefully tailor your activities to address the specific needs of program participants and to achieve the desired outcomes.

Successful applicants are clear in addressing how specific activities in the project design will lend themselves to assisting students in their area(s) of need. For instance, merely asserting in an application that the project will assist students in meeting or exceeding local and state standards does not provide the reviewers of the application with a full understanding of how this will occur. For this type of example, it is our experience that successful applicants address the needs of students at risk of academic failure through the specific interventions of the project's design.

You may include letters of commitment or memoranda of understanding that clearly indicate the role and capacity of each partnering organization discussed in the application. Applicants are advised that the quality of letters of support, with a clear demonstration of buy-in from senior administrators of the partnering organization, is more important than the quantity. It is our experience that the most successful applicants have involved their partner organizations in planning and writing the grant application, as well as in helping to implement the grant once awarded.

(c) Quality of Management Plan (20 Points)

In determining the quality of management plan for the proposed project, the Secretary considers the adequacy of the management plan to achieve the goals and objectives of the proposed project on time and within budget, including clearly defined responsibilities, timelines, and milestones for accomplishing the project.

Suggestions for applicants: We suggest using charts, timetables, and position descriptions and/or skill sets for key staff, as these tools are particularly helpful in describing the structure of your project and the procedures for managing it successfully. We recommend that you clearly spell out objectives, actors, events, beneficiaries, and anticipated results. It is our experience that successful projects describe and budget for the roles and responsibilities of all key staff members and provide resources for ongoing staff development and training. The level or percentage of effort for the project director should be noted in the application.

Prior Alaska Native Education program grant competitions included a criterion related to the quality of project personnel. The quality of project personnel remains a priority for this program. Applications for this and past competitions are strengthened by the inclusion of resumes and/or position descriptions when responding to this criterion. It is expected that the management plan will address the key personnel, their responsibilities, their required skill sets, and any individuals who have already agreed to participate in the project if funded. Furthermore, the program office expects these individuals will be

available to work on the project if awarded. While our office is aware of the challenges in staffing positions in Alaska, EDGAR regulations delineate specific requirements for changing key personnel at the time of award and during the post-award period.

When addressing this criterion, be sure to include information on how this project fits into your organization's overall structure. Understanding how the goals of this project are a part of the primary organization's goals and objectives strengthens applications.

(d) Adequacy of Resources (15 Points)

In determining the adequacy of resources for the proposed project, the Secretary considers the extent to which the budget is adequate to support the proposed project.

Suggestions for applicants: We suggest you show how appropriate resources and personnel have been carefully allocated for the tasks and activities described in your application. It is important to demonstrate how you will leverage existing resources as well as those that any partners are contributing to the project. You are advised that costs should be allocated, and will be judged, against the scope of the project and its anticipated benefits. Please provide a detailed budget narrative that itemizes how you will use grant funds as well as funds from other sources.

The amount of funds requested in both the ED Form 524 (ED Budget Information Non-Construction Programs) and in the budget narrative should be the same. Reviewers will look to both these application components to assist in determining the adequacy of project resources. There should be enough detail in the budget narrative to allow reviewers to understand what funds will be used for, how much will be expended, and the relationship between expended funds and project activities and outcomes. Additionally, any non-Federal funds that will be used for this project should be noted.

(e) Quality of Project Evaluation (15 Points)

In determining the quality of the evaluation for the proposed project, the Secretary considers the following factors:

- (i) The extent to which the methods of evaluation are thorough, feasible, and appropriate to the goals, objectives, and outcomes of the proposed project.
- (ii) The extent to which the methods of evaluation include the use of objective performance measures that are clearly related to the intended outcomes of the project and will produce quantitative and qualitative data to the extent possible.

Suggestions for applicants: We suggest that you submit a strong evaluation plan that will shape the development of the project from the beginning of the grant period. The plan should include the program objectives and performance indicators established under the Government Performance and Results Act (GPRA) for the Alaska Native Education Program (discussed in the next section), to the extent possible, with data at your site. Specifically, the plan should identify the individual and/or organization that has agreed to serve as the evaluator for the project and describe his/her qualifications. It should describe the evaluation design, indicating: (1) what types of data will be collected; (2) when various types of data will be collected; (3) what designs and methods will be used; (4) what instruments will be developed and when; (5) how the data will be analyzed; (6) when reports of results and outcomes will become available; and (7) how information will be used by the project to monitor progress and to provide accountability information to stakeholders about success.

Competitive Preference Priority Points (5 points)

The Secretary shall award priority to applications from Alaska Native regional nonprofit organizations, or consortia that include at least one Alaska Native regional nonprofit organization. In order to receive a competitive preference under this priority, an application must provide documentation supporting its claim that it meets this priority.

Suggestions for applicants: We encourage you to answer the competitive preference priority in both the Abstract and Proof of Eligibility statement. Supporting documentation for the competitive preference priority should be included in the Appendix. It is difficult to award the 5 points if the applicant's eligibility is not clearly stated.

Invitational Priority

The Department strongly encourages applications for projects that address the construction needs of rural schools serving Alaska Native students. However, an application that meets this invitational priority does not receive competitive or absolute preference over other applications.

PROGRAM REQUIREMENTS AND ACCOUNTABILITY

Successful applicants will be required to submit annual performance report(s) and a final report, including financial information, as directed by the Secretary. These performance reports should document grantee success in addressing the individual goals and objectives of their grant and the Alaska Native Education program's performance measures, to the extent that they apply to the grantee's project.

MULTI-YEAR AWARDS

Applicants may request funding for a multi-year award for up to 3 years. In order to be considered for a multi-year award, the applicant must explain why a multi-year project is needed and provide a detailed budget for each of the years of the proposed project. The Department will establish, at the time of the initial award, the funding levels for each year of the grant award. At the end of the project period, applicants will also be required to submit a final performance report.

If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118. Awardees should report on their use of both Federal and non-Federal funds in the completion of their project annually. If you are selected for an award, the budgets for all years of the project will be reviewed at the same time. This means that future continuation awards will rely heavily on project performance reports, which will need to be submitted near the end of each budget period. You will be notified when the reports are due. A copy of ED's generic Annual Performance Report is included in the Appendix C of this application package. An electronic version of the required grant performance forms and instructions is available at the program website <http://www.ed.gov/programs/alaskanative/performance.html>. Please note that Department regulations require that any grantee generating program income is required to submit an annual financial statement. Grantees must use the SF-269 to report on their financial status.

PROGRAM PERFORMANCE INDICATORS

The Alaska Native Education program seeks to support supplemental education programs to benefit Alaska Native populations. Under the Government Performance and Results Act (GPRA), the Department uses the following performance targets to measure the program's success:

- (1) an increased percentage of Alaska Native students will meet or exceed proficiency standards in mathematics, science, or reading;
- (2) an increased percentage of Alaska Native children will improve on measures of school readiness; and
- (3) the dropout rate of Alaska Native middle and high school students will decrease.

Each grantee will be expected to submit an annual performance report documenting its contributions in assisting the Department in meeting these performance measures, to the extent they apply to the grantee's project.

APPLICATION INSTRUCTIONS

GENERAL INSTRUCTIONS

Please note, applications for grants under this competition must be submitted electronically, unless you qualify for an exception to the electronic submission requirement. All applications must be entered into the Grants.gov system. E-mailed applications are not acceptable.

We will reject your application if you submit it in paper format, unless you qualify for one of the exceptions to the electronic submission requirement. To receive an exception to this requirement, you must provide ED with a written statement attesting that you qualify for one of these exceptions. This document must be submitted by midnight no later than two weeks before the application deadline date (April 13, 2006).

Applicants are strongly encouraged to limit the program narrative that answers the selection criterion to no more than 25 pages. Applications must adhere to the following guidelines:

- 8 1/2" x 11" paper with a 1-inch margin on all sides, numbering pages throughout the document at the bottom right of each page beginning with 1.
- Double-space all text in the program narrative, using a font that is either 12-point or larger or no smaller than 10 pitch (characters per inch).
- Include all critical information in the program narrative, minimizing the need for appendices.

The suggested page limit does not apply to the application sheet, required forms, the abstract, the Table of Contents, proof of eligibility, the budget summary form and narrative budget justification, the resumes, or the assurances and certifications. Many of these pages, when submitted electronically, are generated through forms that are separate from the program narrative.

Applicants may request funding for a multi-year award for up to 3 years. In order to be considered for a multi-year award, the applicant must explain why a multi-year project is needed and provide a detailed budget for each of the years of the proposed project. The submitted budget form and budget narrative must reflect the years of funding requested, even if the proposed project will be level funded from year to year.

In preparing your application, you must comply with the requirements in Section 427 of GEPA. This provision requires each applicant for funds to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its federally assisted program for students, teachers, and other program beneficiaries with special needs. Your description need not be lengthy and may be provided in either a separate narrative or, if appropriate, may be discussed in connection with related topics in the application.

MANDATORY SUBMISSION OF ELECTRONIC APPLICATIONS

Applications for grants under this competition must be submitted electronically, unless you qualify for an exception to the electronic submission requirement in accordance with the instructions in this application. We will reject your application if you submit it in paper format unless, as described elsewhere in this application, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions.

Your application must be fully uploaded and submitted, and must be date/time stamped by the Grants.gov system no later than 4:30 p.m., Washington, DC time, on the application deadline date.

Applications Submitted Electronically

You must submit your grant application through the Internet using the software provided on the Grants.gov Web site (<http://www.grants.gov>) by 4:30 p.m. (Washington, D.C. time) on the application deadline date. If you submit your application through the Internet via the Grants.gov Web site, you will receive an automatic acknowledgment when we receive your application.

For more information on using Grants.gov, please refer to the Notice Inviting Applications that was published in the Federal Register, the Grants.gov Submission Procedures and Tips document found in the application package instructions, and visit <http://www.grants.gov>.

- You do not have access to the Internet; or
- You do not have the capacity to upload large documents to the Department's e-Application system

AND – you notify the Department of Education in writing at least fourteen (14) days prior to the closing date for this program competition.

How to Obtain an Exception

You must mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevent you from using the Internet to submit your application 14 calendar days (or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday) prior to the closing date of this notice. Address and mail or fax your statement to:

If Not Human Subjects Research. Check “No” if research activities involving human subjects are not planned at any time during the proposed project period. The remaining parts of Item 3 are then not applicable.

If Human Subjects Research. Check “Yes” if research activities involving human subjects are planned at any time during the proposed project period, either at the applicant organization or at any other performance site or collaborating institution. Check “Yes” even if the research is exempt from the regulations for the protection of human subjects. (See I. B. “Exemptions” in attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”)

If Human Subjects Research is Exempt from the Human Subjects Regulations. Check “Yes” if all the research activities proposed are designated to be exempt from the regulations. Insert the exemption number(s) corresponding to one or more of the six exemption categories listed in I. B. “Exemptions.” In addition, follow the instructions in II. A. “Exempt Research Narrative” in the attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”

If Human Subjects Research is Not Exempt from Human Subjects Regulations. Check “No” if some or all of the planned research activities are covered (not exempt).

- Has never received a grant or subgrant under the program from which it seeks funding;

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research.* Activities, which meet this definition, constitute research whether or not they are conducted or supported under a program that is considered research

for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” *(1) If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be

damaging to the subjects' financial standing, employability, or reputation.

If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked "Yes" for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects "exempt research" or "nonexempt research" narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.

If you marked "Yes" for item 3 a. and designated exemption numbers(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked "No" for item 3 a. you must provide the "nonexempt research" narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and

Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting

consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Potential Risks: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Protection Against Risk: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Importance of the Knowledge to be Gained: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the

importance of the knowledge that may reasonably be expected to result.

(7) Collaborating Site(s): If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

*Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, DC 20202-4250, telephone: (202) 245-6120, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site:

Fringe Benefits (Line 2): The institution's normal fringe benefits contribution may be charged to the program. Leave this line blank if fringe benefits applicable to direct salaries and wages are treated as part of the indirect cost.

Travel (Line 3): Indicate the travel costs of employees and participants only. Include travel of persons such as consultants and trainees under Contractual costs (Line 6).

Equipment (Line 4): Indicate the cost of tangible, non-expendable personal property that has a usefulness greater than one year and acquisition costs that are the lesser of the capitalization level established by the applicant entity for financial statement purposes or \$5,000 per article. Lower limits may be established to maintain consistency with the applicant's policy.

Supplies (Line 5): Show all tangible personal property except those shown under Equipment on Line 4.

Contractual (Line 6): The contractual category should include all costs specifically incurred with actions that the applicant takes in conjunction with an established internal procurement system. Include consultant fees, expenses, and travel costs in this category if the consultant's services are obtained through a written binding agreement or contract.

Construction (Line 7): Indicate costs requested for construction. Please review the Special Instructions for Applications Including Construction Costs on page XX of this document for additional information and requirements.

Other (Line 8): Indicate all direct costs not covered on lines 1-6. For example, include costs such as space rental, required fees, honoraria and travel (where a contract is not in place for services), training, and communication and printing costs. Do not include costs that are treated as part of the indirect cost rate.

Total Direct Costs (Line 9): The sum of lines 1-8.

Indirect Costs (Line 10): Please review the Important Information Regarding Indirect Cost Rates section found in this application package. Indicate the applicant's approved indirect cost rate, per sections 75.560 – 75.580 of EDGAR. If an applicant does not have an approved indirect cost rate agreement with a cognizant Federal agency, the applicant must apply to the Department for a temporary indirect cost rate if it wishes to charge indirect costs to the grant. For more information, go to the Department's website at: www.ed.gov/offices/OCFO/FIPAO/icgindex.html, or call the Indirect Cost group at (202) 708-8787.

This program has a statutory requirement capping administrative costs at five percent (5%). Please remember, according to EDGAR 75.562 (c): Indirect cost reimbursement on a training grant is limited to the recipient's actual indirect costs, as determined by it negotiated indirect cost rate agreement, or eight percent (8%) of a modified total direct cost base, whichever amount is less. Grants with the primary focus of construction cannot charge indirect costs. For additional information, refer to the Important Information Regarding Indirect Cost Rates under Part 5: Budget Narrative.

Training Stipends (Line 11): The training stipend line item primarily pertains to costs associated with long term training programs and college or university coursework, not workshops or short-term training supported by this program. Training stipends are an allowance paid to a participant to help cover certain expenses (e.g., room, board, tuition, etc.) incurred while pursuing further education authorized under the grant. Training stipends in the form of scholarships or fellowships often provide funding to enable students to pursue advanced training, studies, or degrees.

Total Cost (Line 12): This should equal to sum of lines 9-11 (total direct costs + indirect + stipends). The sum for column one, labeled *Project Year 1* (a), should also be equal to item 15a on the application cover sheet (SF Form 424).

The same format should be used to outline any non-Federal funds that will be used on this project. Please remember that the submitted budget becomes binding after award. Changes to the budget should be discussed with ANE program staff and may require prior approval.

Special Instructions for Applications Including Construction Costs

For the FY 2006 competition, construction of facilities is an allowable cost. Furthermore, the Congress has required that a portion of this year's new awards be made to fund the construction of schools in rural Alaska that serve Native Alaskan students. To this end, the Program Office has established an invitational priority.

Section 75.600 through 75.617 of EDGAR outlines specific requirements for grants including construction. Please review these provisions when applying for funds. Among other Federal requirements, applicants are required to adhere to the following:

- The applicant has or will have title or other interest in the project site, including right of access, and that the site will continue to be used for educational purposes after the completion of the project.
- Sufficient funds are available to meet any share of the costs of the repair, renovation, or construction of projects that are not part of this grant.
- Competent architectural engineering supervision and inspection will be maintained at the project's site to ensure that the work conforms to the drawings and specifications for the approved project. Actual construction of the project should begin and end within a reasonable amount of time and in accordance with the approved specifications.
- Grant projects will be functional, economical and not elaborate in design or extravagant in the use of materials, compared with the facilities of similar type constructed by the State or other applicable geographical area. An applicant may make reasonable provisions, consistent with the other uses of the structure, for areas within the facility to be adaptable for artistic and other cultural activities. However, no more than one percent (1%) of the cost of the project may be used for the inclusion of works of art.
- Standards under the Occupational Safety and Health Act of 1970 (Pub.L. 91-576), or State and local codes, if they are more stringent, will be observed in the design and completion of the projects.
- Proposed projects shall comply with any applicable requirements under the ADA and Section 504 of the Rehabilitation Act of 1973 regarding accessibility for the disabled.
- As applicable and to the extent feasible, the design and completion of the grant project should maximize the efficient use of energy. Standard 90.1-1989 and 90.2-1993 of the American Society of Heating, Refrigerating, and Air-Conditioning Engineers, Inc. (ASHRAE) shall be applied in the design and completion of the grant project.
- It will follow the "Earthquake Hazards Reduction Act of 1977" (Pub.L. 95-125) and Executive Order 12699, "Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction."
- The facilities will be operated and maintained in accordance with applicable Federal, State, and local requirements.
- For construction projects over \$2,000, all laborers employed by contractors or subcontractors shall be paid wages at rates not less than those prevailing on similar work projects in your locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act.
- If applicable, the application will comply with the following Indian Preference and Opportunities requirements: Section 7(b) or the Indian Self-Determination and Education

Assistance Act of 1975 (Pub.L. 93-638), that requires, to the extent feasible, the recipient of any grant or contract awarded for the benefit of Indians give to: 1) Indians, preferences and opportunities for training and employment in connection with the administration of the grant or contract; and 2) Indian organizations and Indian-owned economic enterprises, as defined in Section 3 of the Indian Financing Act of 1974 (Pub.L. 93-262, preference in the award of contracts and subcontracts at any level of the administration of the grant project.

At the time of award, program staff may apply conditions to the grant to ensure compliance with Federal and any ED-specific regulations. Please keep in mind that grants solely intended for construction cannot include indirect costs.

Additionally, if you apply for construction costs, you must complete OMB Standard Form 424D Assurances – Construction Programs. This form is available at in this application package (in Part 7: Assurances and Certificates), at <http://www.whitehouse.gov/omb/grants/sf424d.pdf>, and through the application process at Grant.gov. This form addresses the above requirements and other Federal provisions for construction programs.

Section C - Budget Narrative [Attach separate sheet(s)]

Pay attention to applicable program specific instructions,
if attached.

1. Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B. For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show for each budget category of a project year the breakdown of the specific expenses attributable to each sub-project or activity.
2. If applicable to this program, provide the rate and base on which fringe benefits are calculated.
3. If you are requesting reimbursement for indirect costs on line 10, this information is to be completed by your Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on the grant program to

which you are applying and/or your approved Indirect Cost Rate Agreement, some direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. For example, you must multiply the indirect cost rates of "Training grants" (34 CFR 75.562) and grants under programs with "Supplement not Supplant" requirements ("Restricted Rate" programs) by a "modified total direct cost" (MTDC) base (34 CFR 75.563 or 76.563). Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.

When calculating indirect costs (line 10) for "Training grants" or grants under "Restricted Rate" programs, you must refer to the information and examples on ED's website at:
<http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

You may also contact (202) 377-3838 for additional information regarding calculating indirect cost rates or general indirect cost rate information.

Provide other explanations or comments you deem necessary.

- **Application Narrative**

The application narrative responds to the selection criteria found in this application package and should follow the order of the selection criteria. As a reminder, each applicant should limit this section of the application to the equivalent of no more than **25** pages and adhere to the following guidelines:

- 8 1/2" x 11" paper with a 1-inch margin on all sides, numbering pages throughout the document at the bottom right of each page beginning with 1.

- The recommended page limit does not apply to the cover sheet; the budget section, including the budget narrative justification; the assurances and certifications; the table of contents; the project abstract; the proof of eligibility; the resumes; and the appendices.

Selection Criteria for Program Narrative

Three peer reviewers will review each application. They will be asked to evaluate and score each program narrative against the following selection criteria:

 - (ii) The extent to which the methods of evaluation include the use of objective performance measures that are clearly related to the intended outcomes of the project and will produce quantitative and qualitative data to the extent possible.

Note: Applicants are strongly encouraged to limit the program narrative to 25 pages. Also, the narrative should follow the order of the selection criteria listed above.

Part 5: Budget Narrative

This section should be attached as a single document to the Budget Narrative Attachment Form in accordance with the instructions found on Grants.gov.

The Budget Narrative is an itemized budget breakdown for each project year and the basis for estimating the costs of personnel salaries, benefits, project staff travel, materials and supplies, consultants and subcontracts, indirect costs and any other projected expenditures together with supplemental narrative information to justify how the money requested for each budget category is intended to be spent. The Budget Narrative should follow the same organization as the submitted budget.

Additionally, if a budget for non-Federal funds is included in the application, a Budget Narrative should be included for these types of funds as well. If awarded, applicants will need to report on their non-Federal funds in their Annual Performance Report. These reports will be checked against the data from the original application.

Important Information Regarding Indirect Cost Rates

The Department of Education (ED) reimburses a grantee for part of its indirect costs incurred in projects funded by These kinds of costs generally are recovered through an indirect cost rate (ICR) that the grantee negotiates with its *cognizant agency*, i.e., either the Federal agency from which it has received the most direct funding, subject to indirect cost support, or the particular agency specifically assigned cognizance by the Office of Management and Budget or the State agency that provides the most subgrant funds to the grantee. Applicants should pay special attention to specific questions on the application budget form (ED 524) and the budget narrative about their cognizant agency and the ICR they are using in their budget.

If an applicant selected for funding under this program has not already established a current indirect cost rate with its cognizant agency as a result of current or previous funding, ED requires the grantee to propose a restricted rate to its cognizant agency within 90 days after the beginning date of the grant award. Applicants should be aware that ED is very often not the cognizant agency for its own grantees and accepts the current ICR established by the appropriate cognizant agency.

Note: Due to statutory requirements, the administrative component of the indirect cost rate is capped at 5%. When determining the indirect cost rate, this cap should be taken into account.

Some of the grants awarded under the Alaska Native Education program, CFDA 84.356A, have been designated as training grants. The Education Department General Administrative Regulations (EDGAR) limit reimbursement of indirect costs under training grants to non-governmental grantees (subject to 34 CFR part 74). These grantees may recover indirect costs under training grants up to the grantee's actual indirect costs, as determined by the grantee's negotiated indirect cost agreement, or a maximum of 8% of a modified total direct costs, whichever is less. This limitation does not apply to State agencies, local governments or Federally-recognized Indian tribal governments [EDGAR 75.562 (c)(2)].

Additionally, EDGAR does not allow for indirect costs to be charged for certain types of grants or activities. Indirect costs cannot be charged for construction grants or grants to organizations located outside the territorial limits of the United States [EDGAR 75.564 (c)(2) & (4)]. Also, indirect costs cannot be charged for fellowships and similar awards if Federal financing is exclusive in the form of fixed amounts such as scholarships, stipend allowances or the tuition and fees of instruction [EDGAR 75.564 (c)(2)].

Applicants are encouraged to use their accountant (or CPA) to calculate an indirect cost rate using information in the IRS Form 990, audited financial statements, actual cost data or a *cost policy statement* that such applicants are urged to prepare (but NOT submit to ED) during the application process. Guidance for creating a cost policy statement can be obtained by sending an e-mail to katrina.mcdonald@ed.gov. Applicants with questions about using restricted indirect cost rates under this program should contact the program contact person shown elsewhere in this application package or in the *Federal Register* application notice of XXXXX XX, 2006.

Part 6: Other Attachments Form

This section should be attached as a single document to the Other Attachments Form in accordance with the instructions found on Grants.gov. Inclusion of documents in this section should follow the guidance provided elsewhere in the application package. All relevant information should be included in the application narrative, eliminating the need for appendices.

- **Individual Resumes for Project Directors and Key Personnel**
Provide brief resumes or job descriptions (**not to exceed 3 pages per resume**) that include relevant qualifications for contributions to the achievement of project goals and objectives.
- **Supporting Documentation for Proof of Eligibility and Partnerships/Consortia**
Provide only **relevant** supporting documentation for Proof of Eligibility for the program and/or the Competitive Preference Priority. Related partnership and consortia agreements may also be included in this section.
- **Copy of Indirect Cost Rate Agreement**
If an applicant decides to charge indirect costs to this program, the applicant should provide a copy of the most recent approved Indirect Cost Agreement in the Other Attachments form section of the application.
- **Additional Forms as Required**
If requesting construction funds and submitting electronically, insert the OMB Standard Form 424D – Construction Programs (SF 424D) in this section.

Instructions for Meeting the General Education Provisions Act (GEPA) Section 427 Requirements

All applicants **must** include information in their applications to address this provision in order to receive funding under this program.

Section 427 **requires** each applicant to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its federally-assisted program for students, teachers, and other program beneficiaries with special needs.

This section allows applicants discretion in developing the required description. The statute highlights six barriers that can impede equitable access or participation that you may address: *gender, race, national origin, color, disability, or age*.

A general statement of an applicant's nondiscriminatory hiring policy is **not** sufficient to meet this requirement. Applicants must identify potential barriers and explain steps they will take to overcome these barriers.

Applicants are required to address this provision by attaching a statement (not to exceed three pages) to the *ED GEPA427 form* that is included in the electronic application package in Grants.gov.

Part C – Alaska Native Education

SEC. 7301. SHORT TITLE.

This part may be cited as the 'Alaska Native Educational Equity, Support, and Assistance Act'.

SEC. 7302. FINDINGS.

Congress finds and declares the following:

- (1) The attainment of educational success is critical to the betterment of the conditions, long-term well-being, and preservation of the culture of Alaska Natives.
- (2) It is the policy of the Federal Government to encourage the maximum participation by Alaska Natives in the planning and the management of Alaska Native education programs.
- (3) Alaska Native children enter and exit school with serious educational handicaps.
- (4) The educational achievement of Alaska Native children is far below national norms. Native performance on standardized tests is low, Native student dropout rates are high, and Natives are significantly underrepresented among holders of baccalaureate degrees in the State of Alaska. As a result, Native students are being denied their opportunity to become full participants in society by grade school and high school educations that are condemning an entire generation to an underclass status and a life of limited choices.
- (5) The programs authorized in this part, combined with expanded Head Start, infant learning, and early childhood education programs, and parent education programs, are essential if educational handicaps are to be overcome.
- (6) The sheer magnitude of the geographic barriers to be overcome in delivering educational services in rural Alaska and Alaska villages should be addressed through the development and implementation of innovative, model programs in a variety of areas.
- (7) Native children should be afforded the opportunity to begin their formal education on a par with their non-Native peers. The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

SEC. 7303. PURPOSES.

The purposes of this part are as follows:

- (1) To recognize the unique educational needs of Alaska Natives.
- (2) To authorize the development of supplemental educational programs to benefit Alaska Natives.
- (3) To supplement existing programs and authorities in the area of education to further the purposes of this part.

- (4) To provide direction and guidance to appropriate Federal, State and local agencies to focus resources, including resources made available under this part, on meeting the educational needs of Alaska Natives.

SECTION A - Project Objectives Information and Related Performance Measures Data

(See Instructions. Use as many pages as necessary.)

Project Objective Check if this is a status update for the previous budget period ☐

Increasing the percentage of participating students who meet or exceed proficiency standards in Math, Reading or Science

1.a. Performance Measure	Measure Type	Quantitative Data					
The percent of participating students who meet or exceed proficiency standards in Math	GPRA	Target			Actual Performance Data		
		Raw Number	Ratio	%	Raw Number	Ratio	%
		NA	999/999	NA	NA	e.g. 34/50	NA

1.b. Performance Measure	Measure Type	Quantitative Data					
The percent of participating students who meet or exceed proficiency standards in Reading	GPRA	Target			Actual Performance Data		
		Raw Number	Ratio	%	Raw Number	Ratio	%
		NA	999/999	NA	NA	e.g. 32/50	NA

Explanation of Progress (Include Qualitative Data and Data collection Information)
 1a and 1b - If this is the first year of your grant or you are collecting this data for the first time, 999 indicates a baseline target. Only provide actual performance data for period (see examples above) Performance data is based on state assessment (specify test)
 If other subject is being assessed, replace Math or Science with that subject

Other (e.g. Increasing the number of families served by family reading time project)

1.a. Performance Measure	Measure Type	Quantitative Data					
e.g. Number of families served during the project year to date (if second year of grant)	PROJECT	Target			Actual Performance Data		
		Raw Number	Ratio	%	Raw Number	Ratio	%
		75	/		60	/	

1.b. Performance Measure	Measure Type	Quantitative Data					
Children benefiting from pre-natal care (specify)	PROJECT	Target			Actual Performance Data		
		Raw Number	Ratio	%	Raw Number	Ratio	%
			/			/	

Explanation of Progress (Include Qualitative Data and Data collection Information)

1a. If in the second year of the grant, or if this is the second or higher time you are collecting data for this measure, enter both a target and the performance data. For example, above, the target (75) is set a little higher than last year's actual performance (let's say it was 55). Actual performance for this period (60) is higher than last period, but slightly below target.

Note – Ratio and/or % fields may also be used depending on how data is collected
